Summary

Software Engineering Manager with 12 years in software, the last five leading teams of 6 to 22 engineers. Combines people management and hiring with hands-on knowledge of AWS, microservices and Continuous Integration and Delivery (CI/CD). Runs roadmap planning with product and sales, and keeps stakeholders informed with plain, regular updates. Builds teams that ship often and keep their people.

Skills

Leadership: people management, hiring and interviewing, coaching, performance reviews, career development

Delivery: Agile, Scrum, Kanban, Jira, roadmap planning, OKRs, budgeting

Stakeholder management: executive reporting, product partnership, vendor management

Technical: AWS, microservices, CI/CD, Java, Python, PostgreSQL, Kubernetes, Docker

Practices: incident management, architecture review, engineering metrics

Experience

Software Engineering Manager, Polaris Payments | *Toronto, ON* | *Apr 2021 - Present*

- Lead three teams and 22 engineers who build the payments platform on AWS microservices
- Hired 11 engineers in two years, writing the interview loop and training 15 interviewers
- Introduced Scrum and quarterly roadmap planning with product, raising on-time delivery from 58% to 87%
- Cut production incidents by 45% by adding CI/CD quality gates, on-call reviews and service ownership
- Report progress, risks and budget to the VP of Engineering and finance stakeholders every month
- Kept voluntary attrition under 5% a year through clear career paths and regular one-on-ones

Engineering Team Lead, Polaris Payments | *Toronto, ON* | *Jan 2019 - Mar 2021*

- Led a team of six engineers that split a monolith into eight Java microservices
- Ran Agile ceremonies in Jira and coached two engineers into senior roles
- Worked with stakeholders in sales and support to set priorities for a new merchant dashboard

Senior Software Engineer, Maplewave Software | *Waterloo, ON* | *Jun 2013 - Dec 2018*

- Designed and built PostgreSQL-backed services in Java and Python for a SaaS product with 400 business clients
- Set up the company's first CI/CD pipeline and moved deployment from monthly to daily

Education

Bachelor of Applied Science, Computer Engineering, University of Waterloo | *Waterloo, ON* | *2013*
